

ABSTRACT OF THE DISCLOSURE

A method of distributing documents includes the step of displaying the documents on a web site. Responses to the documents are accepted on the web site. After the responses have been accepted, they are processed into a report and the report is returned to an interested party. It is to be understood that the surveys or other forms to be completed by users could be filled out on paper manually and the results could then be entered into a computer and sent to the web site. The reports could be electronically transmitted, and/or hard copies sent via mail, overnight, or through other modes.
